

AWWA brought "Trout in the Classroom" to the Acton Elementary School 7th grades and a SeaPerch (underwater robotics) activity to the Paul School 8th grades. We delivered our "Wonders of Water" watershed science programs to all 6th, 7th and 8th grade students.

AWWA, the Acton Public Library, and the Gafney Library presented a series of four "Water Talks" on the fascinating lives of eels, loons, eagles, and what a lake needs to remain healthy.

As part of a Maine DEP grant, AWWA partnered with the Anderson Cove Road Association to replace a malfunctioning culvert on a tributary on Great East Lake.

MONITOR

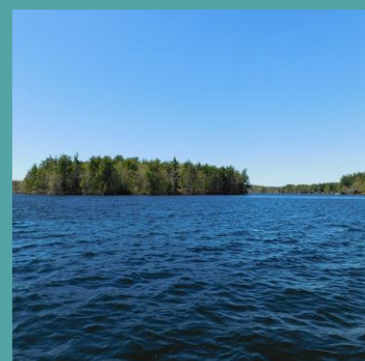

EDUCATE

Our first annual Water Fair was held in Sanbornville. Participants had fun making cork boats, getting their faces painted, becoming Watershed Warriors, fishing for rubber ducks, making fish printing t-shirts, and more!

RESTORE

Eight Province Lake homeowners signed agreements for the cost-share program to update their degraded septic systems. Five are complete and three are approved and waiting for construction.

Acton Wakefield Watersheds Alliance

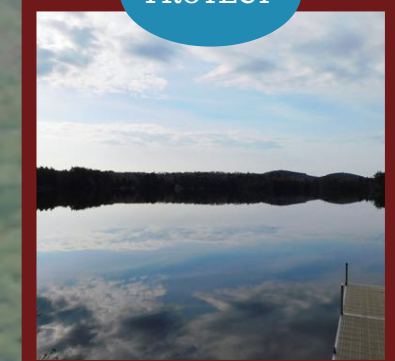

2018 Annual Report

The Youth Conservation Corps corrected erosion problems by installing 100 Best Management Practices (BMPs) on 17 properties on 5 waterbodies. Our technical assistance program provided guidance to 21 residential property owners.

An additional 200' long by 10' wide vegetated buffer was installed on the Province Lake beach adjacent to Route 153 to mitigate the effects of road runoff to the lake.
